Hi everyone

Well, who can believe it’s Term 4 already?

I hope you all had a relaxing holiday and are ready for the final action packed end to the year.

Monday October 12th we had a fantastic training day at Kirton Point Primary School looking into the links between reading and writing. We looked closely at the demands associated with writing each of the different types of text and the multiple skills required to become fully literate. Wonderful opportunity for us and really great thinking generated for our programming.

Hats—This term we need to be wearing hats again. For everyone’s safety we ask that your child has a hat. Hats will be worn during play times, sport lessons and we will definitely need one for this Friday’s Sports Day!

Sports Day information. The day will start at with an official opening at 9:45. I would advise everyone arrive by 9:35am. The children have been divided into 12 teams which are a mix of children from all schools. A recess break will occur at 11:15 and a lunch break at 1pm. Please remember to bring water bottles, snacks, hats and wear school uniform on the day. If you did not ordered through the Poonindie lunch ordering system last term then your child will need to bring lunch and snacks. Official dismissal will occur at 1:50pm however, if we finish before that and you wish to leave a little early, you must inform your child’s teacher before you go.

Governing Council meeting will be Tuesday 20th October at 7:30pm in the Stone building. Looking forward to seeing you all there.

Science Field Trip—The school is planning to take students on local Science Field Trip to test and study the water quality. Students will be travelling by school bus so keep an eye out in your child’s bag Thursday afternoon for an consent note and more information.

A big thanks to Steve Law who has been babysitting our incubator during our absence in the holidays. The chicks are due to hatch in the next couple of days.

Showcase—Late last term we had Ungarra Showcase afternoon which was a wonderful celebration of the curriculum we provided at our school. JP’s put on a great interactive display of Science, Child Protection, Math and entertained us with a great song. The Upper Primary had informative session on some of the Research work and interviews they have been doing and also a celebration of their amazing Clay Animation and Coding. The children prepared a delicious afternoon tea and I am always so proud of the number of families we have supporting every event we put on.

You are really wonderful!

Kathy
### PRINCIPAL AWARDS
#### WEEKS 9 and 10 T 3

<table>
<thead>
<tr>
<th>MISS ENRIGHT</th>
<th>DECLAN PHILLIS</th>
<th>ASHLEE PHILLIS</th>
<th>BEN BAINES</th>
</tr>

</tr>
<tr>
<td>Outstanding attitude to learning and cooperating with others</td>
<td>Persistent effort in maths and literacy</td>
</tr>
</tbody>
</table>

---

Term 4 means **NO HAT - NO PLAY OUTSIDE**

Please ensure your children all have a clearly named hat at school each day.
MRS FOSTER’S UPPER PRIMARY MONEY EXCURSION

On Tuesday week 9 the Upper Primary class travelled to Tumby Bay as part of their learning about money in Maths with Mrs Foster.

Four groups were allocated, each with a recipe that the class cooked the following day in Kitchen lessons.

The groups were required to locate the ingredients and record the price and measurement of each item. Total costs were calculated and extension questions undertaken. Our final challenge was to purchase fruit or vegetables to the cost of $1 for recess.

Once this was completed we headed to the Foreshore Playground for recess and a quick play.

Thank you to Tumby Bay Foodland for having us, Mrs Ashworth for driving the bus and Mrs Davison for accompanying us.
At Ungarra we truly appreciate the way our families and community members enrich our school. We have decided to try and find out even more about your skills and talents in our new Community Spotlight section of the newsletter.

Where were you born?
Cowell, SA

What was your favourite game as a child?
Red Rover

Who is someone you admire?
Elon Musk

Where is your favourite place to go?
South Mole Island in the Whitsundays

If you were stranded on a desert island, apart from family, what 2 things would you take?
Water and a good book

Favourite book as a child?
Biggles

What are 2 things you are good at?
Maths and computers

What’s 1 thing you would like to improve at?
My fitness

What do you believe school does for our community?
I think it gives everyone a common social and learning meeting place

Being Numerate

Being numerate involves a lot more than knowing mathematics facts (for example times tables and addition facts). You need to be able to think like a mathematician and inquire about mathematical ideas. You need to be able to solve unfamiliar problems in a multitude of contexts and have a wide range of strategies to help you when you don’t know what to do.

It Is Important to Remember

The everyday activities you do at home help to develop mathematical concepts and numeracy understanding.

Every day you use mathematics and numeracy in some way. It happens as you:

- Play with your child
- Talk with your child
- Use mathematical language and share your thinking with your child

Building your child’s numeracy skills and a positive attitude towards numeracy is just as important as reading to your child every day.

ROSE MUSIC CONCERT

18th October

(THIS SUNDAY)

Church of Christ Hall  2.30 pm. Bring a plate of afternoon tea to share.

All are welcome to come and be
First off a big thank you to the Modra’s who hosted our last day excursion at the end of last term—we all had a great day.

This week we were greeted with wonderful weather for our first day back this term and a small but enthusiastic turn out considering it was a student free day.

Sofia and Sasha and the kids got stuck into pruning back our garden and the children delighted in watching Jon go round and round on the mower; waving to him on every lap which was pretty cute. I’m sure it was a nice welcome back for him after his trip to NZ.

Kaz brought Alexis along for her first session making her our newest Playgroupee and Mila showed me how good she is at puzzles.

The majority of the toy orders should be ready for parents to collect next Monday as well as the school photos.

A parent meeting has been scheduled for Thursday 29th of October at 7.30 pm in the Playcentre.

I am hoping our Principal Kathy Davison can attend so please put this date in your diaries as there will be a few important things to discuss. We thought we might give ourselves our own “Pamper Evening” so you can bring along a small plate of supper and any pampering things you might have. Hopefully we will have the timing just right before harvest starts!
A group of Tumby Bay local and district residents calling themselves "The Tumby Show Boat" are putting together a concert that will be held in "The Soldiers' Memorial Hall" Tumby Bay on Saturday 31st October at 7.30pm and a matinee on Sunday 1st November at 2pm. The event is "The Tumby Show Boats" presentation of "Music Thru the Ages". The concert will include songs from the 1940's to the present day. Performers are from Tumby Bay and district, Pt Lincoln and members of "Sing Australia" from Tumby Bay, Cummins and Pt Lincoln.

Boarding passes to the show will be available for $15 adults, $10 children under 15 and children under 5 free. Tea, Coffee, Refreshments and a Bar will be available at the Hall on the Saturday. Tea, Coffee, Refreshments and cool drinks on the Sunday.

Boarding passes for either Show will be available for purchase prior to the event at Hibble's Pharmacy, Tumby Bay. The Tumby Bay branch of the Bendigo Bank or Anthony Cave’s Office, also in Tumby Bay. Passes can also be purchased at the Hall 1 hour before either Show.

The District Council of Tumby Bay and staff are supporting the group as is the Tumby Bay branch of the Bendigo Bank. Support and offers of help from members of the community has been overwhelming.

The group aims to raise funds to purchase equipment for "The Soldiers Memorial Hall" in Tumby Bay.
